

St Richards Hospice, Worcester

New Build Hospice

The project comprises a new build hospice on a green field site to the east of Worcester. The building is two storey of traditional construction utilising load bearing masonry, precast concrete floor units and timber trussed rafter roofs.

Civil engineering design responsibilities include for all sub surface drainage, including attenuation and retention to the requirements of the Environment Agency, and the design of all access roads and car parking areas.

Structural Appraisals of Multiple Care Homes for Derbyshire County Council

Structural Appraisals

GCA provided structural surveying expertise to assist our client with developing lifetime cost and management plans of multiple care homes, inclusive of;

- New Bassett House HOP, Shirebrook
- Beechcroft HOP, Ilkeston
- Briar Close House HOP, Borrowash
- East Clune Hop, Clowne
- Gernon Manor HOP, Bakewell
- Holmlea HOP, Tibshelf
- Ladycross House HOP, Sandiacre
- The Leys Resource Centre, Ashbourne
- Rowthorne HOP, Swadlincote
- The Spinney HOP, Brimington

Our experience in various forms of construction, and extensive surveying experience allowed us to offer our professional opinion on the Structural Condition of premises' and identified any significant defects.
